ARTE

Arte achieved international fame as a designer of the most luxurious and sophisticated wallcoverings. Known for their superior quality and exquisite designs, Arte wallcoverings adorn the walls of residential homes and project interiors all over the world. With Moooi's new exciting concept, Green House paired with Arte's expertise & dedication to luxury, we present this extraordinary wallcovering collection.

GREEN house

Step into the Green House, a realm of quiet and romantic sophistication - a tapestry of refined and elegant flora and fauna. Here, the Coccinella Bella, Woodblock Beetle, Silk Bombis, Lacy Longlegs and Techno Bee find sanctuary amidst their chosen greenery. Together, they created a wondrous and tactile world. This world is captured in the Green House Wallcovering Collection.

With an air of quiet sophistication and refined elegance, the Green House exudes the ethereal beauty reminiscent of a Victorian conservatory. Discover floral yet abstract patterns in natural colours, offering a sophisticated and tactile experience for your walls. The collection is crafted with high-quality and original materials such as wood veneer, jacquard fabric, bouclé fabric and silk textures. Each wallcovering promising a sensory journey through sophisticated, original designs.

As the sunrays filter through the foliage of the Green House, a botanical spectacle unfolds. Vibrant flowers bloom in kaleidoscopic hues, their fragrances mingling with the earthy aroma of exotic trees and shrubs. The leaves adorned with track marks and other artistic proof of unseen tiny creatures. A testament to the bustling life within this verdant sanctuary. The soft vibrations of bees and ladybugs' wings produce melodious sounds that blend harmoniously with the tactile marvels found within the Green House. It's a living canvas where nature's brushstrokes adorn every petal, every leaf and every creature that calls this enchanting space home.

THE GREENHOUSE GATHERING

The Greenhouse Gathering Wallcovering is a stunning wallcovering that draws inspiration from decorative moulding. The design imitates the sensation of peering through the glass panels of a Green House, uncovering the mesmerising marvels of lush flowers. When examined more closely, intricate features become apparent, highlighting the hidden small creatures moving through a lush green landscape. Infused with the charm of art deco, the Greenhouse Gathering Wallcovering comes in a monochrome palette that reminds of plasterwork. The wallcovering has a soft suede look for added tactility.
