

FOR IMMEDIATE RELEASE

Exterpark Southeast Asia Unveils Revolutionary Decking Innovations Across the Region

Singapore – 21 May 2025– Exterpark Southeast Asia, a leader in premium outdoor flooring solutions, proudly announces the launch of groundbreaking innovations set to transform outdoor spaces across Southeast Asia. With a steadfast commitment to quality, sustainability, and design excellence, Exterpark continues to redefine the standards of outdoor living.

Elevate Outdoor Spaces with Exterpark's Premium Decking

Exterpark's signature decking solutions are renowned for their exceptional durability, aesthetic appeal, and innovative installation systems. Designed to withstand the tropical climate of Southeast Asia, these decking systems offer a seamless blend of functionality and style, making them the preferred choice for homeowners, architects, and developers.

Introducing EcoR PVC Composite Decking: Sustainability Meets Performance

In line with global sustainability trends, Exterpark Southeast Asia introduces the **EcoR PVC Composite Decking**. Crafted using advanced polymerised fiberglass technology, this decking solution offers superior resistance to heat and weather conditions while being fully recyclable. Its low-maintenance nature ensures long-lasting performance, making it an ideal choice for eco-conscious consumers seeking both durability and environmental responsibility.

Revolutionizing Installation with the Patented Shark Clip System

Setting a new benchmark in decking installation, Exterpark unveils the **Shark Clip**—a patented system that uniquely offers both screw-in and screwless installation options. This innovative solution provides unparalleled flexibility and ease, significantly reducing installation time and labor costs. The Shark Clip system exemplifies Exterpark's dedication to pioneering advancements that enhance user experience and efficiency.

About Exterpark Southeast Asia

Established in 2019, Exterpark Southeast Asia is a subsidiary of the globally recognized Exterpark brand, originating from Barcelona. With a focus on delivering high-quality, sustainable, and innovative outdoor flooring solutions, Exterpark Southeast Asia has successfully catered to a diverse clientele across residential and commercial sectors in Singapore, Malaysia, and Indonesia.
