STAGELINE furniture collection from KEUCO

Large double washbasin for more freedom in the bathroom

The STAGELINE furniture collection from KEUCO has more to offer: A new variant has been added to the popular ensemble of STAGELINE bathroom furniture, and is now available in a 1400mm dimension with two washbasins. For families or couples, this means twice as much space and freedom to move, thanks to the second wash area. But the stylish washbasin solution mounted to a glass surface also sets a distinctive accent in the bathroom.

It comes either without tap holes for use with wall spout fittings or with tap holes for two single-lever mixers. Black or white ceramic washbasins lend themselves well to combinations with different style collections.

With the STAGELINE furniture collection from KEUCO a cosy atmosphere is now possible in the bathroom. At the centre of attention here is the furniture, combining timeless, beautiful design with cosy accents. The visual highlight of the series is an open, illuminated storage shelf, perfect for showcasing decorative items and favourites. The warm-white LED lighting (3000 kelvin) is controlled by a capacitive touch sensor on the furniture. Included are practical features, such as the shaver socket integrated in the shelf and the USB and USB-C charging point. Positioned in the middle, the connections can be conveniently accessed from both wash areas.

Different colour and style collections

Developed by the Tesseraux + Partner design agency in Potsdam, KEUCO's comprehensive STAGELINE furniture series is characterised by modern linearity and straightforward elegance with a tone-in-tone look. The glass fronts and furniture bodies are always the same colour, exuding an aura of calm and harmony. Entirely in line with the current trend, the natural colours transcend any particular fashion.

PRESS INFORMATION

Gentle and discreet, warm and cosy, and yet remarkably expressive. Even fans of white and anthracite will find a match here for their particular style collection. Whether brilliant lustre or velvety matt, the furniture's glass fronts add a touch of elegance to every bathroom.

Filigree glass fronts with no handles

In attention to detail the STAGELINE furniture collection demonstrates its distinctiveness. The slightly protruding glass front at the top serves as handle for opening and closing. The front drawers are equipped with soft-close functionality, closing gently and quietly.

Neat and tidy with flexible divider system

A genuine talent for tidiness is the vanity unit. With the drawer and optional interior set, intelligent and optimum use of space in the cabinet is assured. For clever organisation of storage space, the interior set can be put together flexibly from four different sizes. The dark and elegant liner mat creates a slip-resistant surface.

More cosy STAGELINE furniture

For larger storage space needs and a special atmosphere of comfort, STAGELINE offers three more furniture items: a tall unit, and a single-door and double-door medium unit. With its illuminated shelf compartment in the middle, the tall unit has an aura of refinement. Vials and jars or decorative elements can be spotlighted here, too, just as in the vanity unit. All cabinets impress with soft-close hinges for gentle closing, and premium, easy-to-care-for glass shelves inside.

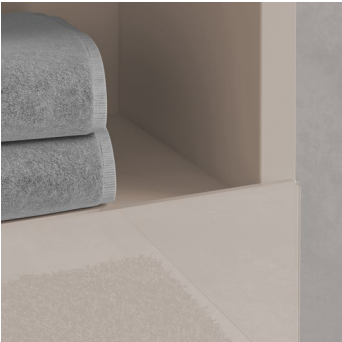

Combinations with other fittings and accessories from KEUCO offer enormous potential for versatile and multi-faceted bathroom design.
