DIASEN[®]
GREEN BUILDING FUTURE

A photograph of a modern interior space. In the background, there is a beige modular sofa with a white metal frame. To the left of the sofa, a potted plant with green and reddish leaves sits on a white surface. In the foreground, a large, dark brown, textured spherical object, resembling a piece of pottery or a decorative ball, sits on a light-colored floor. The wall is a neutral, light beige color.

THE VERSATILE AND GLOBAL DECORATION

Decorkrete is a **decorative coating** with a strong identity that interprets trends in architecture and interior design. It allows **continuous surfaces** and the creation of environments inspired by the **culture of the industrial loft** and the aesthetic trend of the *'unfinished'*.

Decorkrete is based on **elegant aesthetics** through materials, finishes versatile effects, colours and textures.

A solution that finds application in environments where **high strength** and **durability** are required.

Decorkrete is suitable for every environment: horizontal and vertical surfaces, indoors and outdoors, kitchens, furniture and shower, wellness and spaces such as saunas which are strongly affected by **humidity** and **thermal stress**.

FUNCTIONALITY AND BEAUTY: FACTORS OF ORIGINALITY

The decorative impact of Decorkrete is also the result of the **functional peculiarities** of a solution designed to combine **inspiration** and **application benefits**.

The properties derive from its nature as a formulation obtained due the **special resins, quartz and innovative additives** that allow achieve a high level of performance.

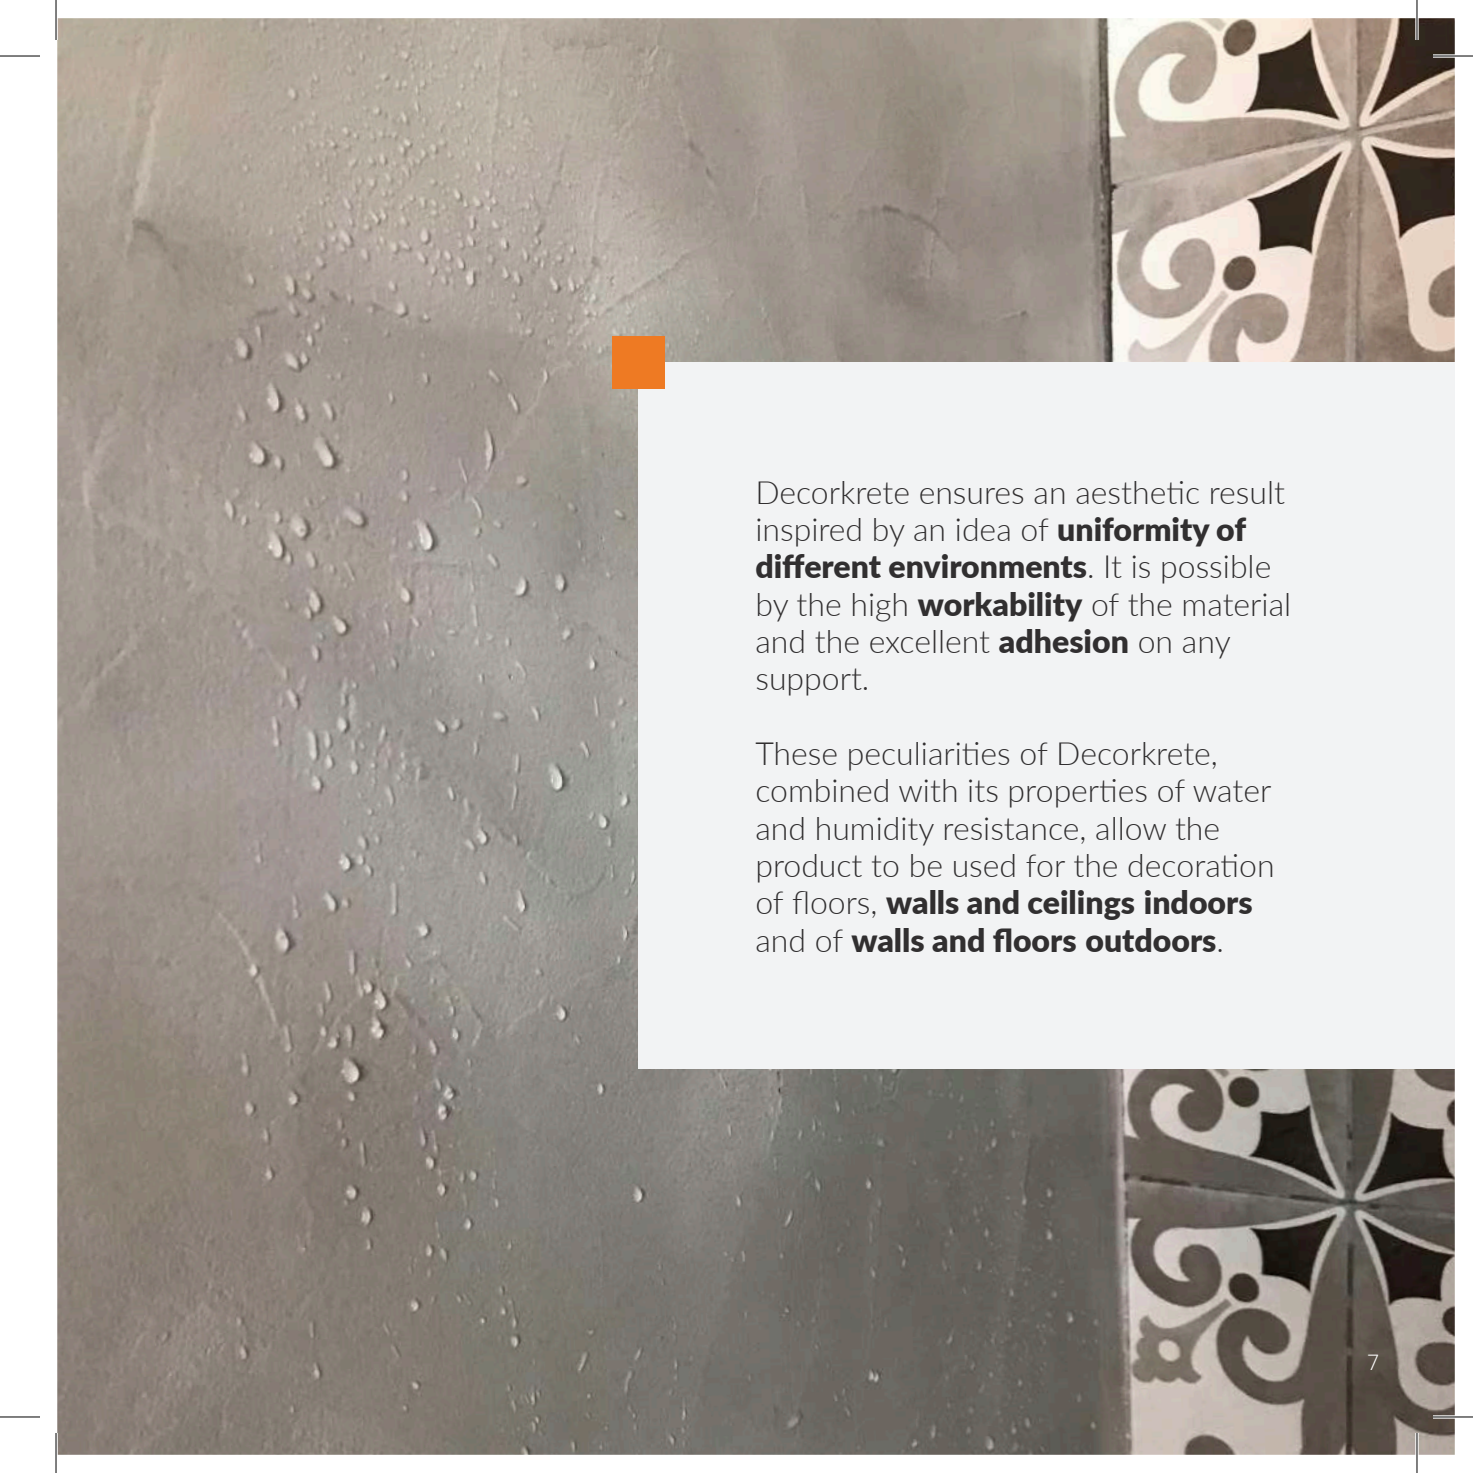

Decorkrete bases its decorative *appeal* on a number of valuable elements:

- a unique, modern effect with only **two millimetres of thickness**;
- **application on all types of surfaces**: cementitious substrates, plasterboard, new and existing plaster;
- high **scratch resistance**
- **filling capacity** that allows any correction of imperfections;
- direct application on **tiles** and **mosaics** without costs of removal and disposal;
- perfect **resistance to water**, humidity and atmospheric agents;
- application on **rounden** and **irregular surfaces**;
- a simple system, with **fewer application steps** compared to standard similar solutions;
- allows to create **surfaces without joints** and easy to **clean**.

TOTAL-LOOK EMOTIONS

DECORKRETE ENABLES THE CREATION OF **SURFACES PERFECTLY SMOOTH AND WITHOUT CRACKS**, CHARACTERISED BY A VISUAL AND **CONTINUOUS PROFILE**. IT PERFECTLY EMBODIES THE AESTHETIC AIMS OF THE SOLUTION.

Decorkrete ensures an aesthetic result inspired by an idea of **uniformity of different environments**. It is possible by the high **workability** of the material and the excellent **adhesion** on any support.

These peculiarities of Decorkrete, combined with its properties of water and humidity resistance, allow the product to be used for the decoration of floors, **walls and ceilings indoors** and of **walls and floors outdoors**.

APPLICATION ON FLOOR AND CEILING

The product provides an essential design that gives surfaces a refined and modern effect. The floor decorated with Decorkrete is completely **smooth and smooth, continuous, homogeneous and without cracks**. A result that can also be achieved by applying directly onto **existing tiles and mosaics**.

The quality of the underfloor application system guarantees a **walkability** extremely fast - between 4 and 5 hours after work is completed - and a high level of **resistance to scratches** and **abrasions** that enhance the functionality of the product.

Decorkrete can also be used on the **ceiling** and it is important to emphasise that this type of application requires **greater rapidity of laying** and a high level of **application experience**.

WALL APPLICATION

The use of **decoration on walls** allows to express the highest level of interior design and to realise interesting and suggestive effects.

The effects of Decorkrete on surfaces lend a **unique texture** to any environment. When applied on wall gives excellent aesthetic results on **any type of support**.

Decorkrete is also perfectly suited for use on **exterior walls** because, unlike other comparable standard solutions, it resists the **effects of UV-rays and rain**.

THE MOST SUITABLE ENVIRONMENTS

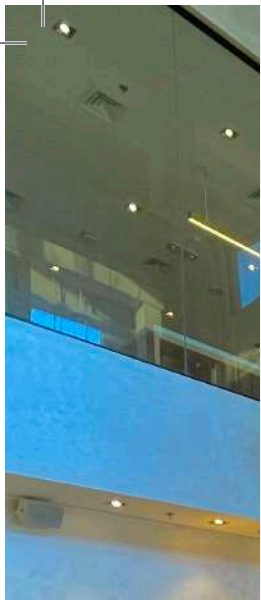

Decorkrete stands out for its **versatility of use**, making it a product able to meet the **decoration needs** of very different environments. It allows to link the **beauty of design** and the **performance** of the applied system.

For this reason Decorkrete was applied in different type of constructions: from *industrial-style* houses to the *headquarters* of big companies, from *wellness* to *restaurants* and *public buildings*.

In addition to the trendy, minimalist elegance of the decoration, a number of elements can be perceived that refer to the **performance of the system**:

- **large numbers of people** - such as in restaurants, large companies and public offices - which 'stresses' floors in terms of footfall and resistance to scratching and abrasion;
- environments such as saunas and spas, affected by the **impact of humidity and thermal shock**.

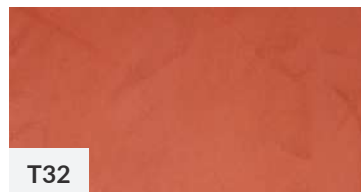

THE CHROMATISM OF BEAUTY

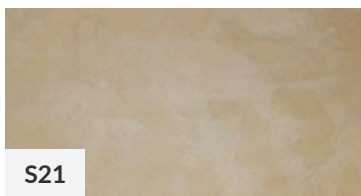

DECORKRETE ALLOWS A
DECORATION WITH AN EXTREMELY
WIDE RANGE OF COLOURS, WITH
A STARTING BASE OF **24 COLOUR
PROPOSALS** FROM OUR PALETTE.

WITHIN THIS **OFFER OF COLOURS** IT
IS POSSIBLE TO IDENTIFY A RANGE:
SOLUTIONS FOR THE **INDUSTRIAL
STYLE AND NEW DESIGN TRENDS**;
MORE **EXTREME COLOUR** TO
EXPRESS EXPERIMENTAL DESIGN.

EFFECTS AND TEXTURE

Diasen offers **two effects** that meet the main requirements of decorators:

- **CLOUD.** Delicate and uniform texture for a *cloudy effect* that can be accentuated by *sanding*. This effect is obtained by playing with trowel and choosing the points of water accumulation so as to make clearer the points where it concentrates.

THE VERSATILITY OF DECORKRETE ALLOWS THE DEVELOPMENT OF **UNIQUE AND ORIGINAL EFFECTS** AND TEXTURES. THE PROTAGONIST IS THE **IMAGINATION OF THE DESIGNER**.

- **STONE.** A dynamic effect, re-proposing the natural *irregularities of the stone* in a decorative form. It is achieved with semicircular movements, leaving in evidence the *ridges of the trowel*.

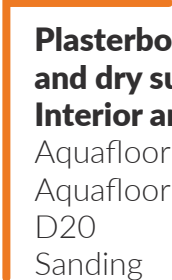

SYSTEM CORNERSTONES

THE DECORKRETE SYSTEM MAKES IT POSSIBLE TO RESPOND TO DIFFERENT NEEDS IN AN **ABSOLUTELY SIMPLE WAY**. WITH A FEW VARIANTS, FOCUSED ON THE **CHOICE OF PRIMER AND PROTECTIVE AGENT** AND CORRELATED TO THE **CHARACTERISTICS OF THE SUBSTRATE**, IT IS POSSIBLE TO CREATE A SYSTEM THAT SATISFIES DECORATION NEEDS INSIDE AND OUTSIDE, ON HORIZONTAL AND VERTICAL SURFACES.

EXPERIENCES OF BEAUTY

BLENDED WELLNESS
DUBAI, UAE

Blended Wellness is a 1,500 sqm space for health, fitness and beauty experiences. Decorkrete was used to decorate the **interior of the SPA**, which is deeply marked by the thermal shock and high humidity.

The Decorkrete system has been applied to **floors, walls and ceilings** and was selected by the designers for several reasons: **smooth design**, high resistance and **walkable**, excellent **adaptation to walls** and **curved floors** of the different areas of the SPA.

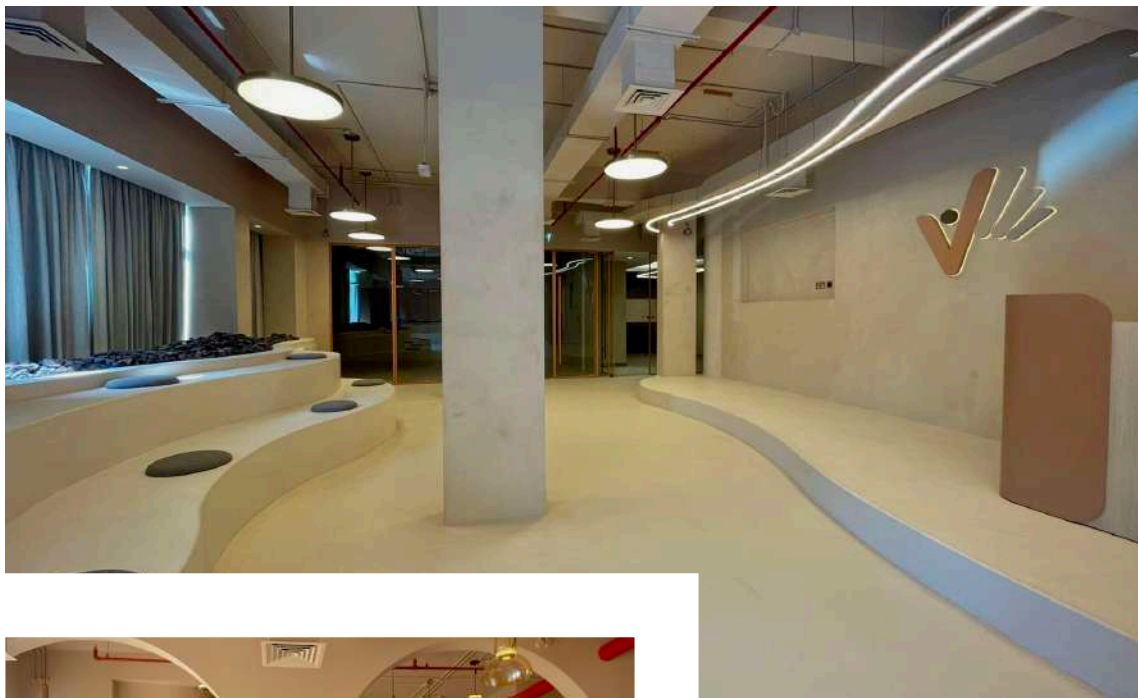

EXPERIENCES OF BEAUTY

NHRI
ABU DHABI, UAE

مركز حقوق الإنسان
NATIONAL HUMAN

Decorkrete was used to decorate the rooms of the new **headquarters of the National Human Right Institution**, an independent body which promotes human rights in the UAE reality.

The system was applied on approximately **3,000 sqm of walls, floors and ceilings** and was chosen by the clients for its **ease and speed of application on cavities and curved walls** and its high resistance, with only a few mm thickness.

EXPERIENCES OF BEAUTY

SPORT SOCIETY COMMERCIAL CENTER
DUBAI, UAE

Sport Society is a new shopping centre near Dubai International Airport. Dubai International Airport and is spread over five floors (**75,000 sqm**) of a **modern, brand-new structure** with a strong emphasis on the enhancement of what is natural.

Decorkrete was applied on approximately **2,500 sqm of the building** and involved exclusively the **walls of the structure**.

EXPERIENCES OF BEAUTY

TEIBLE RESTAURANT DUBAI, UAE

Teible Restaurant is located in the heart of Dubai, right opposite the famous Versace Palace. It is a **unique and specialised** in pursuing local food and using ecofriendly practices that reduce environmental impact and waste.

Decorkrete system was chosen by the clients for its **material qualities and high workability**. Its application on **floors and walls of toilets, bathrooms, corridors and the central hall** makes the structure absolute elegant in design.

EXPERIENCES OF BEAUTY

HOTEL ROMANTICO
GABICCE, ITALY

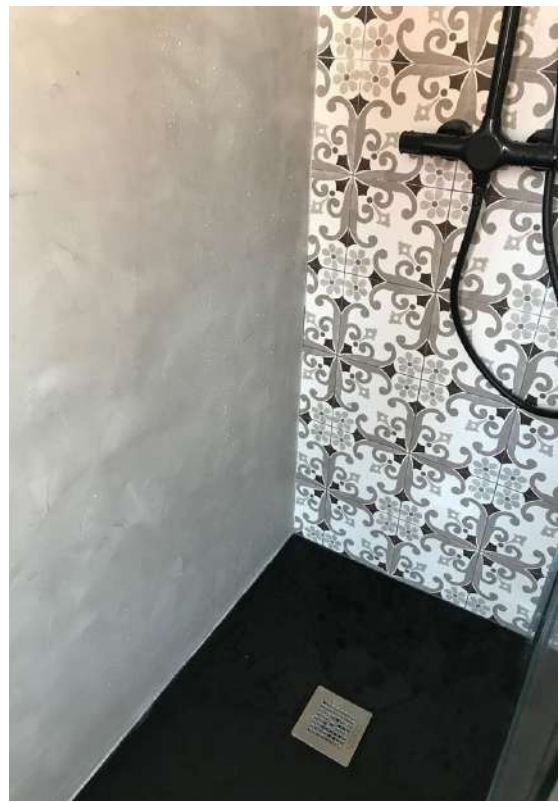

The aesthetic and functional improvement of approximately 40 bathrooms in the Hotel Romantico was realised **without removing the existing tiles**. Decorkrete was applied in **two layers** and **sanded**.

After the drying of Decorkrete, **Aquafloor Eco** was applied, a transparent coating designed to **protect against water** and, in general, of an environment strongly affected by humidity.

EXPERIENCES OF BEAUTY

RESIDENZA DEL PRIORE
ANCONA, ITALY

In this private residence, the system was used in the **bathroom** and **kitchen**. In the bathroom, the application took place on **plastered cement surfaces**, after application of **WATstop** as vapour barrier and waterproofing. Afterwards Decorkrete was also coated with **Aquafloor Eco** on the inside of the shower to ensure **waterproofing**, facilitate **cleaning of the substrate** and eliminate problems associated with **mould and condensation**.

In the **kitchen**, the product was applied **directly on a wall to cover the tiles** through a cycle consisting first of: **Grip Primer** and then **Watstop** to fill the joints to obtain a **flat surface**. The application of the system was then completed with **Decorkrete** and **Aquafloor Eco**.
