DESIGN FOR LIVING

A family owned Portuguese company founded in 1972, GRANORTE was established as a business to specifically develop products from the cork waste that is the by-product of the wine cork stoppers manufacturing industry.

From that time we have developed into a leading Portuguese sustainable flooring manufacturer, producer of thrilling environmentally responsible products.

One tradition was kept unchanged however: the quiet revolutionary way of promote ongoing, consistent, breakthrough creativity. As a result of our innovative thinking and commitment to new product development, we have created an inspiring new cork collection, having the focus on sustainability and design. It is our belief that the new cutting-edge contemporary products under the GRANORTE DESIGN brand will bring to interior designers the originality they seek and to cork the value it deserves.
