MEET ARTE

Arte is a family business born out of a vision for beauty. As designer, manufacturer and distributor of high-end wallcoverings, Arte strives to translate its passion for aesthetics, craftsmanship and quality into every activity from the big decisions to the smallest details. The carefully considered designs – sometimes exuberant, sometimes modest – transform Arte's wallcoverings into a versatile element that transforms the atmosphere of both residential hospitality settings.

DESIGN & RESEARCH

All Arte products are designed in-house at our advanced design studio. Our designers are always searching for new materials or techniques and travel the world for inspiration. Innovatively and inventively using materials never before incorporated into wallcoverings.

Our extensive range includes the world's most fascinating materials: from metal foil to denim, wood veneer, fabrics, leather, banana bark and much more. With innumerable specialist techniques, such as weaving and inlay work or digital prints, we bring them to life.

ICARUS

The Greek myth of Icarus tells how Daedalus and his son Icarus were imprisoned on Crete. Daedalus created wings made of feathers and beeswax to escape. He warned Icarus not to fly too low or too high. Icarus, however, ignored his father's sound advice and flew too close to the sun. As the wax melted, he plummeted to his death.

This story of courage and hubris, but also of unique creativity and of pushing boundaries to craft something almost impossible, provided the inspiration for this collection. Blending unique, creative designs with technical innovation, Icarus uses materials that have never been incorporated into wallcoverings in this way before. The innovative designs of the Icarus collection celebrate craftsmanship and redefine the boundaries of what is possible.

MERINO

For most of us, a good interior design needs to radiate warmth and cosiness and Wool, a firm favourite, adds unparalleled comfort. This natural material was also the inspiration for Arte's Merino collection.

The three plain wallpapers in this collection are all interpretations of quality woven wool. Their natural colours provide the ideal canvas for a warm and vibrant interior, combining seamlessly with 'harder' materials such as glass, metal and concrete. Each plain wallpaper comes in a wide range of natural colours.

MELAKY

This collection of wallcoverings draws on the diverse nature of Melaky, a region on the island of Madagascar with dry savannah and grasslands as well as dense mangroves. The mulberry tree and raffia, the two materials that inspired this collection, both grow in Madagascar.

The bark of the mulberry tree and the fibres of the raffia palm are processed using artisanal techniques to create unique designs. These hand-crafted wallcoverings, whose textures and colours evoke the landscape of Melaky, have an unexpectedly organic look and feel. The warm, natural hues and textures combine beautifully, creating a sense of simplicity and depth. It is a timeless collection that is uniquely suited to both modern and traditional interiors.

EMBLÈME

Arte has a long tradition of designing and manufacturing wallcoverings using the most unusual materials and innovative techniques. Combining bold patterns with a range of exceptional materials and cutting-edge techniques, this collection is nothing short of emblematic. Wood veneers, 3D textiles, and a high-gloss finish: each wallcovering in this collection will elevate your interior.

MARQUESA

Dramatic cliffs, pristine beaches and majestic palm trees: the Marquesas Islands tick all the boxes. Add a rich historical past to this already intriguing combination, and you can see why the Polynesian archipelago inspired the Marquesa collection. This exclusive wallcovering captures the natural splendour of these islands, in addition to paying tribute to their rich cultural heritage. It is a collection with influences from indigenous art and centuries-old crafts.

TERRA

The Terra collection draws on the pure beauty of mosaic, clay and terracotta pottery. The hand-shaped patterns were crafted using lime plaster, imparting rich texture and character. These hand-made designs served as inspiration for a 3D textile wallcovering with a super-soft suede look and feel. The result is a highly realistic representation of weathered rock in which every detail and unevenness is rendered with great precision, imbuing a sense of warmth and authenticity.

TALI

Tali is the Indonesian word for rope – a name that beautifully conveys the essence of this sophisticated wallpaper collection. Each design in the collection is inspired by the rich textures of different types of rope, carefully selected from Indonesia. The hand-crafted patterns, which draw on artisanal craftsmanship, have been meticulously transposed into a collection of elegant vinyl wall decorations.

LUSTER

During the Spanish colonial period, capiz shells were often used in windows instead of glass as they were easier to obtain and also filtered the light nicely. The Latin name of this shell is *Placuna placenta*, but it is also called windowpane oyster.

Capiz plays a starring role in four unique designs of our Luster collection. Each design, which is available as a tile, features a striking relief thanks to a creative technique: threads are glued onto the subsurface, after which water-soaked capiz is printed onto this pattern. Each design is available in two neutral and two bolder hues with a luxurious, natural pearlescent sheen.
